

Payment Module

Published: 09.07.2020.

Translated by machine translator

The Payment Module guarantees institutions a single payment system for services. Using PM, payments can be made with 9 internet banks.

In the Latvija.lv e-service "First registration of a pet (room) animal", on the e-services portal of Jurmala City Council and "Registration fee for RTU foreign students" you can also pay with payment cards - VISA and MasterCard. At the end of 2019, 51 public services could be settled through the PM.
